GENERAL:

- **Lab Protocol:** Baseline labs will be drawn on all students. Monitoring of medication blood levels will be done at required intervals, and follow-up for any abnormal values will be drawn as needed.
- **Immunizations:** Given according to the CDC guidelines and New Hampshire School Immunization Guidelines with parental consent.
- **Annual EKG's:** Performed on every child annually.
- **Dystonia Protocol:** Any child that receives an anti-psychotic are at risk for EPS (Extra Pyramidal Symptoms). To assess for any adverse reactions, a licensed member from Health Services will do an AIMS/DISCUS assessment every three months.
- **Ophthalmology Protocol:** Any child that receives the anti-psychotic, Seroquel, will have a slit-exam evaluation annually.
- **Vision Screening Protocol:** To be done annually by The Lions Club.
- **Audiology Protocol:** To be provided by Spaulding annually.

*For any abnormal findings, student will be referred to a specialist for further assessment.
