ABOUT TOWN

Spaulding Academy & Family Services has unveiled the Shaker House, a new building in Northfield that will accommodate its community-based programs' families and staff, including foster care licensing workers, clinicians, case managers and family aides. When staff members are not on the road visiting the children and families they support, the Shaker House provides a private meeting space for supervised family visits and additional office space for employees. All of the construction and renovation work was completed by the Spaulding facilities team.
