

Classroom #39

A mix of middle school age students wrapped up their science lessons by building boats and racing them using the knowledge they acquired throughout the summer lessons. By applying displacement, permeance, aerodynamics and measurements the students worked in teams of two to construct a vessel that both stayed afloat and moved efficiently through the water. The day, as it has historically been, was wonderful! The students did amazing and spent a great deal of time extolling what each group did right and how things could have been improved. We wrapped up with a cookout and swimming and lawn games. It was a wonderful day in every way!

Autumn Colors

This month our students have been working with warm colors and creating fall themed artwork. Our students went on a walk to find different types and sizes of leaves. We took our leaves back to the art room where students used sponges to apply paint to their leaves. We then pressed them into the paper and peeled them off which created these beautiful fall leaf prints.

Ask Your Child: What's your favorite season?

Connor age 9

William age 8

Halloween Treats

Witches Broomstick Snacks

Ingredients

8 String Cheese Sticks
24 Pretzel Sticks
Fresh Chives

Instructions

1. Cut each string cheese stick in thirds (about 1 1/2" each).
2. Make lengthwise cuts around the cheese stick to about half way up.
3. In the uncut end of the cheese, insert a pretzel stick.
4. Bind with a piece of chive. Cut off extra chive.

Candy Corn Fruit Pops

Ingredients

Pineapple Slices
Cantaloupe
1 Banana
Lollipop Sticks

Instructions

Cut pieces from the pineapple slices. Then cut the cantaloupe to fit on top. Do the same with the banana so the shape looks like a candy corn. Push in the stick to hold together. Slice up the rest of the fruit & place it in a bowl. Push the candy corn pops in fruit to stand up.

NUTRITION

White Chocolate Strawberry Ghosts

Ingredients

Strawberries, whole
Bag of White Chocolate melts
1 cup of Milk Chocolate melts

Instructions

1. Melt white chocolate melts in a double boiler or a microwave safe bowl by following the directions on the back of the package. In a small bowl do the same thing with the milk chocolate.
2. Wash and dry the strawberries and then dip them. Place them on a sheet of parchment paper. Before you place them make a little tail before you place the dipped strawberry down to create the ghost. Continue with all the strawberries and let them dry.
3. Put the milk chocolate in a piping bag with a small circle tip. (or you can place in a ziplock bag and cut a tiny slit in the corner of the bag)
4. Pipe 2 circle eyes and an oval mouth on each strawberry to create the white chocolate strawberry ghost

Ask Your Child: What is your favorite fall activity?

Take me to the Carnival!

The Behavioral Health Department put on a Carnival for Spaulding students on Wednesday, August 31st! Fun was spread out all over the quad! As you entered the carnival, you had the opportunity to get your face painted or a temporary tattoo. There was a field full of games and activities for everyone to enjoy! They included water games, giant jenga, giant connect four, a potato sack race, and many more! Finally, after participating, students were able to cash in their ticket for a prize. Popcorn was also served to top it all off! It was an afternoon full of smiles and clowning around!

The Behavioral Health Department at Spaulding Academy & Family Services is comprised of a clinical team, behavioral team, residential case management team, permanency team and a leadership team. We serve the needs of all residential students on campus as well as their families. In addition, we work with outside agencies to provide the most robust treatment.

Michelle Baron,
Family Services Administrator
